**or fraction thereof.*

EXCEPTIONS

1. Where a building contains more than one assembly area and the assembly areas required to provide assistive listening systems are under one management, the total number of required receivers shall be permitted to be calculated according to the total number of seats in the assembly areas in the building provided that all receivers are usable with all systems.
2. Where all seats in an assembly area are served by an induction loop assistive listening system, the minimum number of receivers required by **2010 ADA Standards for Accessible Design Table 219.3** to be hearing-aid compatible shall not be required to be provided.
