

T2863, R2863

863 MHZ PORTABLE FM COMMUNICATION - EUROPE

T2 863 Transmitter

R2 863 Receiver

[A NEW RANGE OF POSSIBILITIES]

NEW The T2 863 FM transmitter and R2 863 FM receiver are ideal for use in assistive listening, tour guide and simultaneous interpretation scenarios. They are compact, simple to use and now offer an expanded range of up to 150 m (500 feet). Each has an easy-to-read LCD display, with quick status views and immediate access to 16 user-selectable, pre-set frequencies. Optimized for use in Europe, this

tandem offers the exceptional audio quality you've come to expect from Williams Sound.

The T2 863 and R2 863 can be used with Alkaline AA batteries, or rechargeable NiMH AA batteries (must be charged externally). The new technology accommodates a variety of microphone/headphone/neckloop options.

T2863, R2863
