[AHEAD OF THE CURVE]

Simultaneous, one- and two-way, wireless team-teaching systems in the 2.4 GHz band. Work well in a classroom where two or more teachers combine skills to teach as a team. Teacher always controls the presentation.

With the DWS TTS 1, one-way communication with student is available. Two teachers can speak simultaneously; student can hear both teachers; student has listen-only capabilities.

With the DWS TTS 2, one- or two-way communication with students is available: Two teachers can speak simultaneously; student can hear both teachers; student can participate as listen-only or access two-way mode with the push of a button.
