# WIR SYS 75P

## INFRARED JURY DELIBERATION ROOM SYSTEM

### FEATURES/BENEFITS

- Meets ADA compliance for jury deliberation rooms.
- Complete system with carry case.
- Portable, quick, easy set-up.
- TX75-S slave emitter available for extended coverage.
- Master unit has troubleshooting lights built in.
- Separate RCA audio inputs for each channel (2.3/2.8 MHz) accept balanced or unbalanced line level inputs; use together for stereo operation or separately for mono.
- Unit senses if only one channel is in use and doubles the output power on that channel for twice the coverage.
- Green power—if no audio is present after a few minutes, unit automatically disables power to IR diodes, reducing power consumption by 80 percent.
- Looks great! Sleek, professional styling complements room aesthetics.
